

DRAMA ONE OVERVIEW

By KAREN LOFTUS

This is a curriculum map for a comprehensive theatre class. The purpose of the course is to give students an overview of theatre in general. The super objective of this course is to have the students “bring it all together” at the end in a culminating project.

Every unit has padding to allow for teacher's own games, reward games, warm ups, cool downs and just time for when class is interrupted, canceled, or a concept needs to be repeated. Please refer to the Pacing Guide for more details and ways to supplement with other DTA materials.

The overview provides a list of all of the units, and provides a description and outline for each - so teachers can get a sense of how the curriculum works together as a whole, or which parts they may choose to use.
