SOUND

By JOSH HATT

This is an introductory mini-unit to sound that you can use whether or not you have a sound system. Students will work toward being able to demonstrate their knowledge of sound effectiveness.

The questions of the unit include: What is effective sound? What sounds and music do we need in order to make our scene effective? How will we know our sound cues are effective?

1 - Introduction to Sound

Students are introduced to sound through video demonstration, discuss the impact of sound on a scene, and complete a vocabulary activity.

2 - Sound Effectiveness

Students will explore how sound can affect the mood of a scene. They are then given a sound assignment to apply sound and music to a blank scene using a specific format.

3 - Sound Assignment

Students continue to work on their sound assignment. They will rehearse their scenes, continue to discuss sound effectiveness and reflect on their work in class.

4 - Tech Rehearsal and Performance

Students are given time for a tech rehearsal and then perform their scenes. The emphasis is on the groups demonstrating a knowledge of sound effectiveness.

5 - Reflection

Students discuss the scenes from the previous class and reflect as a group on the process.
